## JOB CONTRACT & WORKING MANUAL

### POSITION: SALES AND MARKETING TEAM

---

#### Parties

This Sales and Marketing Engagement Agreement ("Agreement") is entered into between PIDEN ("Company") and the Applicant ("Sales and Marketing Representative"), effective upon acceptance of this Agreement and approval of the application. That applicant is to be regarded as a commissionable sales agent and not a permanent employee.

#### Instructions of Application

Read through this contract and understand every section before you submit your application.

Once you are in agreement to this job contract and working manual, proceed to do the following:

1. Submit your updated CV and Current Passport Photo to [piden.co.ke@gmail.com](mailto:piden.co.ke@gmail.com)
2. Fill in the job application form at the bottom of the job opportunities page after the contract. You must fill in the form in **CAPITAL LETTERS**.
3. Submit your application.
4. Confirm that you have been assigned a staff ID card under staff login (side menu of the home page).
5. You can start working as you wait to be assigned your working team.

#### What will you be marketing?

The PIDEN has created a simplified **Point of Sale System (POS)** that is meant to assist Small and Medium-sized Enterprises (SMEs)/Businesses in managing their day to day operations by offering stock management, sales management, soft copy receipt generation logics, real time analysis, expenses management, orders management and many other features. This Point of Sale System (POS) is what you will be marketing to business owners, convincing them and onboarding them to start using it as their business management culture.

#### What is your work exactly?

As a PIDEN Sales and Marketing Staff, your work will be to move to the ground real world Businesses, get to meet with business people, talk to them about our Point of Sale System (POS) and convince them to start using it. You will be required to educate business people on how to use the PIDEN Point of Sale System (POS), and inform them of all core features of the system so that they have an easy time adapting to it.

#### What is the Target Market for the POS?

To maximize businesses onboarding, focus on Small and Medium Sized Businesses countrywide that need a system that is affordable, efficient and easy to use. Target businesses that provide products, services or both. Sample targets are: Electronics Shops, Phones and Accessories Shops, Chemists, Mali Mali Shops, Boutiques, Jewellery Shops, Food Stuffs Shops, Snacks Shops, Hardware Shops, Cyber Cafes, Kinyozi and Salon Shops, Hotels, Shoe Shops, Baby Accessories

Shops, Drop-Shipping Individuals, All sorts of retailers and wholesalers. Basically, any business that can use a POS to manage its operations.

### What are the requirements?

1. Your updated Curriculum Vitae
2. Your current passport photo
3. A complete understanding of the Point of Sale System (POS) before you start working

### Everything you need to know about the POS:

1. **Access:** The POS is accessible through our website: [www.piden.co.ke](http://www.piden.co.ke)  
Note that PIDEN website requires internet connection to access and uses very minimal data bundles when using them to access the internet making it affordable.
2. **Compatibility:** Our POS can be used across all devices, in computers, phones, laptops, tablets and any other device that can access the internet.
3. **The PIDEN App:** There is an option of downloading our App inside the home page in the side menu. This becomes an easier, cleaner way of businesses accessing their POS (Staff can also download it for easy access of Staff Page).
4. **Real Time Data:** Whenever a business owner has left employees at the work place, every sale they make appears to their side as well when they just log into the system from wherever they are, improving business management efficiency.
5. **Registration:** Every new business that comes in has to register their account before they sign in. On registration, the business owner has to set an extra Admin Password that will be used to access sensitive pages like Edit Stock and Analysis Page and also will be used to update Login Password in case forgotten. The Admin Password ensures security when a business owner has employees since they cannot access sensitive pages or edit stock without it. Should this Admin Password be forgotten, the owner will contact our customer care desk through the contacts provided there for immediate assistance. Note that for us to know that you are the one who on boarded a certain business, under referred section when registering, they have to tick referred and enter your mobile number as the Marketers Code, e.g. 0748408498. This way, we will link that business as brought by you as a marketer.
6. **Activation Credit Fee:** On a successful business registration, when the business logs in for the first time, they will be redirected to the Billing Page immediately where they are supposed to pay their one-time Activation Credit Fee of **KES 250 ONLY** through the provided channel so as to be able to start using the POS.

**What is this Activation Credit Fee for?** This fee is a one-time payment used to activate the Database Storage of that particular business profile. Once the user pays the amount, they will have purchased a permanent storage space where their stock, sales, expenses, orders and everything they feed to the system will be stored. **NB:** This fee will not and cannot be used in any other way apart from getting a permanent Database Storage for the Business.

**Will the Fee benefit the user? YES!** After the customer pays for their Database Storage, we ensure to give them **KES 250** Credits back for them to use before now they start to make the normal POS usage fees. Note that for every sale the customer makes, they will be charged only **KES 0.50**. Therefore, the activation credit fee will cover the sales they

make until it is depleted, meaning, they can make up to **500 sales** without having to pay for using the system at all.

**What after the Activation Credits are used?** After the credits get depleted, users will start to pay **POS Usage Fees**.

7. **POS Usage Fees:** Here, every sale the customer records now will be billed at **KES 0.50 ONLY** per sale, e.g. If the customer makes 10 sales within the day, their bill will be only **KES 5 only**. For the first usage fee, the due date will be 30 days from the day their activation credits deplete. For the rest of the usage fees, the due date will always be 30 days from the day their previous payment depleted.
8. **What happens if the user is late on paying Usage Fees?** The POS will lock automatically just temporarily until the user makes the payments due. Once they pay, they will be allowed back to continue using the POS.
9. **Why get charged per sale?** The model of charging the users per the sales they make is to ensure fairness. If a business makes less sales, we charge them less and if they make more sales, then the charge matches the sales. Such that if a business makes 1000 sales a month, they pay KES 500 only, while the business that makes only 100 sales a month pays KES 50 only. This will ensure client fairness and is a strong point when onboarding clients.
10. **Dashboard Page:** Every business will have their dashboard from where they can access every feature of the POS. Before you start onboarding clients, make sure you understand how to navigate in the dashboard.
11. **Manage Stock Page:** Every business to start using the POS has to record their stock in terms of products or services or both under this page. You will show the business owners how to add stock to their page. They can also use this page to edit stock. When now restocking, or when they need to change prices, they will just need to come to Edit Stock, update the number of products in stock, or update the prices or photos of products and services in stock.
12. **Make A Sale Page:** This is where businesses will be making their sales from. They can check out different products and services, edit the selling price when selling an item, increase quantity, add products and services to one sale when checking out if they are selling all to the same person and choose the method their customers used to pay for the items sold. The POS automatically reduces the number of products in stock as one sells and even notifies users when the products they are trying to sell are out of stock. Users get immediate receipts as well for the sales made which are downloadable and printable.
13. **Daily Sales Records:** Here, businesses will get a clean record of what they sold through the day, being recorded nicely and the records of Total Sales, Stock Amounts and Profits all nicely calculated and divided into Cash or Mobile Payment as per the payment channel. Here, they can get daily sales reports as pdf, and even get receipts for sales they made before. Users can also choose the range of records they want to see, meaning they can see records for as far back as they want. The receipts here are also downloadable and printable.
14. **Restock Aid Page:** When restocking, business people can choose the range to see the stock they have been selling over time, be able to hold and drag to arrange the items sold and even get a downloadable report to use as reference when restocking.
15. **Business Expenses Page:** Here, businesses can record their day to day expenses that are related to the business. They also get records of those expenses and these records are used to calculate their business performance under analysis section.

- 
16. **Orders Management Page:** Here, businesses can manage orders made by clients, get reports and even mark deliveries once an order is completed.
  17. **Analysis Page:** Here, businesses are able to see their over time performance in terms of sales, see graphical analysis, record business extra inventory, view and get inventory reports and also see their business value as they grow. This page helps businesses know exactly where they are, what they are offering, what they own and what their worth is efficiently.
  18. **Business Profile Page:** Here, businesses can be able to edit their profile details to updated details which will be reflecting under their receipts.
  19. **Billing Page:** Here, businesses can track efficiently how much they are supposed to pay so as to continue using the POS, when to pay, how to pay and also submit payments made. Note that all payments have to be submitted through this Page for them to be relevant. Users should not make payments twice before the previous payment has been approved. Any issues with payments should be reported immediately to customer care for solving.

### **What to do before you start onboarding businesses?**

You need to ensure you have a complete understanding of what you are marketing to people before you start marketing it. To do that, you need to interact with the POS before starting working. Once you have completed submitting your Job Application in our website, you will proceed to register an account as if you are a business person so that you understand exactly what you will be educating the public about. **NB:** For the **Business Name**, you have to enter: **PIDEN SALES AND MARKETING TEAM**, the **Business Owner**, enter your names as entered during Application and **Phone Number**, enter your number as registered during application, so that you get distinguished from normal business people. Upon registering an account, note that you will also be prompted to pay the Activation Credit Fees. **DO NOT PAY!** Since you are creating an account for practice, we will not charge you for that. Instead, proceed to Pay Here, and submit the payment even if you have not paid so as to be allowed to practice with the system. Once you submit the payment by following the instructions given, notify your assigned Team Leader, or our contact desk and then you can start interacting with the POS system. Note that you will be using that account as a sample when convincing businesses about our POS and showing them what they need to do.

### **When to Start Working?**

Once you have submitted application, go to the home page's Side Menu, navigate to Staff Login, and once you login, confirm you have a staff ID Card in your page. If unable to Log in, do not resubmit application, contact customer care desk for assistance. Then proceed to create the POS account, interact with the POS and once you're confident that you have understood the POS features, you can immediately start working.

### **Marketer's Payments/Commissions**

You will be paid in commission of **KES 100** for every business you successfully onboard to the PIDEN POS. To successfully onboard a business, you must make sure that when marketing, they create an account, enter your mobile number under the referred section and they activate their Database Storage by paying the Activation Credit Fee of KES 250. Note that the business account will only reflect to us as Active once the business has paid the Activation Credit Fee and we have

approved it. Once you confirm they have paid the fees through the channel provided, you will have successfully on boarded a business to the PIDEN POS and your commission will immediately start reflecting in your staff page. Note that your commission will reflect inactive until we approve the business' payment, and will reflect as Pending while awaiting to be paid to you and change to Paid once we pay you.

Commission becomes payable only after the customer's Activation Credit Fee payment has been verified and approved by PIDEN.

### **When will you be paid once you start working?**

Once you start actively onboarding businesses to PIDEN POS, you will be paid after every **7 days of work**. You are allowed to work every day. You will be paid through the Mobile number you register when submitting application (Ensure accuracy. In case there is an issue, address it with the contact desk before you start working).

### **Do businesses benefit for referring other businesses?**

Yes! If a business refers another business, they should enter their mobile number under the referred section and contact our customer care to claim their entitled commission. The commission for such remains to be **KES 100 ONLY** and will also be paid through the number entered under the referred section. This is a stronghold when marketing.

### **Who will you be working under?**

Once you submit your application, while working, you will be assigned a team and introduced to the team leader under whom you will working.

### **Promotions**

Promotions will be announced through your team leaders and will be fair for every marketer based on your performance.

### **Bonuses**

Bonuses will be given out based on your performance ranks. The ranking will be real time in your staff page. You will be evaluated every month and bonuses will be given to the leading top 3 marketer's in the team. Should your team lead overall in all teams, bonuses will be awarded to the team as a whole as well.

### **Working Targets**

The recommended daily performance target is **ten (10) successfully on boarded businesses**. This target is intended for performance evaluation, promotions and bonus consideration and does not constitute a guaranteed minimum requirement for continuation of engagement.

### **Branding/Uniforms**

You will only be issued with branding/uniforms branded PIDEN only after 1 month of active businesses onboarding. After then, you will also be allowed to issue fliers and also hand merchandise to businesses.

### **Meetings**

You will be expected to attend all meetings as arranged by the management, as communicated to you by your team leaders.

### **Staff Verification**

Note that the public will have all rights to verify your identity under the Verify PIDEN Team Page using your staff ID. This will ensure a smooth time while interacting with the public to eliminate security suspicions.

### **Protecting your own information**

Every marketer and business will be liable for protecting their passwords to avoid unauthorized access of their accounts.

### **Data Protection**

PIDEN shall process personal information in accordance with applicable data protection laws. The marketer shall not disclose confidential business information obtained during engagement except where authorized in writing by PIDEN.

### **Terms and Conditions**

1. The marketer shall not reproduce, copy, redistribute or commercially exploit PIDEN software, branding, documentation or business processes without written authorization. Doing so will result to serious legal consequences and added fines as deemed fit.
2. Note that Training, Documents, Logos, Website and Software all remain property of PIDEN.
3. To terminate this contract, you must formally notify us through our contact channels. The same applies when we wish to terminate/end your contract, you will be informed.
4. Where credible allegations of fraud arise, PIDEN may temporarily suspend a marketer's activities while investigations are conducted. Appropriate action will be taken based on investigation findings.
5. Any mistreatment either from your fellow marketers or your team leader is not allowed and is to be reported to our contact desk for immediate action.
6. Where disputes occur, internal resolution will be sought first, mediation being the next alternative and will only escalate to Kenyan Courts where need be.
7. PIDEN will ensure timely payment of commissions to ensure continued motivation of marketers.
8. Any suggestions, complaints, compliments and general feedback is allowed to be passed to the contact desk.
9. This Agreement shall be governed by the laws of the Republic of Kenya.
10. This contract is subject to periodic changes. Keeping a copy of it when you agree is advised.

### **Agreement of Compliance**

Proceeding to join PIDEN means you have read, understood and agreed to this job contract and working manual.
